MPOAC Legislative Newsletter

Overview

Greetings everyone!! It is Saturday again and it is good to be with you for another update. This week has been an exciting one, both nationally and here at home in Florida. Let's look at Florida and let others cover the national news scene with one exception. A big congratulations to "Mayor Pete" on becoming the USDOT Secretary of Transportation. Pete Buttigieg was confirmed this week by the US Senate, and he is officially the youngest Secretary of USDOT at age 39. He was formerly a US Navy Intelligence Officer as well as the Mayor of South Bend, Indiana. His education credentials include Harvard and Oxford and certainly you remember that he was also a contender for the Democratic nomination for US President. Importantly to us, he was also a Board Member of his MPO when he was Mayor!! Hopefully, this translates to policies and funding that are favorable to the MPO community. Congrats again to Mayor Pete, we look forward to working with you.

This week the Governor's Budget proposal was released and in the newsletter last week we shared with you details of the Florida DOT proposed budget for the coming state fiscal year. The Governor's budget proposal totals \$96.6B of spending which is \$4.3B more than the current year. Projections for the coming year are for reduced revenues of around \$2.75B and the Governor's proposal does not recommend increasing state revenue. You may ask "How is this possible?". Please remember that the state has set aside funds for "a rainy day" or in other words when the money is short in one year, there are savings to smooth out the spending patterns in Florida. The proposed budget also relies upon federal aid and is optimistic that revenues will come in above projections. Revenues have actually been coming in higher than projections this year, which is positive news, so the Governor may be onto something with this budget. The reception of the budget in the House and Senate seemed a bit cool, the concern being that Florida cannot afford this level of spending. Watch this and let's see how it plays out over the coming legislative session. A few quick transportation highlights from the proposed budget, the County Road Programs funding is reduced and there is \$50M in a Road Economic Development Program.

Last week I shared that the Senate Transportation Committee would have presentations by Florida DOT and by our good friends at the Florida Public Transportation Association (FPTA). The Florida DOT presentation was about their legislative proposals, most of it is pretty straightforward and does not raise eyebrows. There is one piece that impacts MPOs and seems rather innocuous. This would be the proposal to move the due date for your individual List Of Project Priorities (LOPP) to the department forward by two months. Currently your LOPP is due in October and that works well when the legislature meets in odd numbered years. In those odd numbered years, the legislature meets later on the calendar. In even numbered years the legislature meets earlier by about two months and that does not align the LOPP submittal with the task of creating a recommended work program of transportation projects for the legislature. The department is proposing to move the LOPP submittal up by two months to August for every year so that the work program of transportation projects can be built and include your MPO priorities. As MPOs we want a piece of the funding pie so

advancing the LOPP forward by two months seems like a sensible approach. Stacy Miller, Assistant Secretary for Finance and Administration made the presentation and once again did her usual great job. Stacy also had some other big news this week, we want to congratulate her on becoming the next Florida DOT District 6 Secretary. We will miss her in Tallahassee, but both Miami-Dade and Monroe Counties are certainly smiling right about now. Mr. Clinton Forbes of Palm Tran presented on the impacts COVID has had on transit in Florida. He is the Chair of FPTA and leads Palm Tran in Palm Beach County. He also did a great job and hopefully his presentation will lead to some legislative assistance for our transit partners.

The last item which must be mentioned is the introduction of three bills, all of which are covered in the latter section of this newsletter as new bills. Keep an eye on SB 1030 by Senator Polsky and HB 763 by Diamond. These are identical bills, and the short summary is that they repeal the M-CORES legislation from a few years ago. This sets up an interesting situation, the M-CORES will certainly be expensive and the current fiscal situation for the state is tight. Will the concerns of reduced revenues cause these bills to gain traction? Also, you may remember from a while back when we reported that Representative Sprowls was to become the next Speaker of the House, then Representative Sprowls commented that he was supportive of the M-CORES. Keep in mind, that statement of support was before our revenue projections were reduced by COVID. We have seen that revenues have been coming in above projections but not to the levels seen prior to COVID. Meanwhile Senator Hooper filed SB 924 which expands the years of certain expenditures within the M-CORES program and can be viewed as supporting M-CORES. These competing bills suggest very different futures for the M-CORES. How these three bills do during the session is unknown, like most bills at this point in legislative session, but I ask you to watch these bills.

The schedule of pre-session committee weeks is shown below along with key dates for the 2020 Florida Legislative Session. All new bills and any updates to bills shown below are in **RED** so you can quickly distinguish between updates and old news. A few bills have been filed; many more will be filed over the coming months. Your MPOAC Legislative Update will keep you apprised of newly filed bills and changes to existing bills.
