MPOAC Legislative Newsletter

02/20/2021

Overview

Greetings everyone!! This week wrapped up the pre-session weeks of committee meetings and we are on to the regular session which begins March 02, 2021. Yes, your calendar is not deceiving you, there is a one-week break in between and thus there will not be a newsletter next Saturday. Also, we will not have the meeting schedule for committees during the first week of regular session until about 4 or 5 days before the committees are actually meeting, so no updates to that section of the newsletter this week. We have removed from the newsletter the list of pre-session weeks since that data is now in the past. With the start of regular session, now the process will begin to heat up and we are off to the races. Let's dive into what has happened this week around our capitol.

Senate President Wilton Simpson stated his support for the M-CORES legislation and the associated projects. This is interesting in that an earlier MPOAC newsletter shared with you that a pair of bills had been filed to undo the M-CORES legislation. We now know that the Senate version of that repeal bill is not going to be heard in committee.

The mid-block crossing bills are back again this year. This year's bills are similar to last year, the mid-block crossings with flashing yellow lights will be a problem for all government entities in Florida if the bills are passed. The bills originate from a horrible tragedy that occurred and the intent is to protect any other family from having to endure the pain and heartbreak of losing a loved one. That my friends is a very noble cause, hats off for taking on a bill to prevent another loss of life. The fear among transportation professionals last year was that the content of the bill would actually make mid-block pedestrian crossings more dangerous. Expect this set of bills to be modified during session and expect that Representative Fine will push this bill aggressively. The incident that brought this bill forward occurred in his district and he is determined to help this family. Rep Fine has a huge heart and that is admirable.

Representative Andrade advanced his Transportation bill through the House Tourism, Infrastructure & Energy Subcommittee. It took some explaining, particularly when it came to allowing blue flashing lights on large pieces of construction equipment, but he expertly handled each question and got the vote to advance his bill. Each year Representative Andrade has brought forward a transportation bill and our MPO community has noticed. It is great to have legislators that have an interest in transportation, thank you Representative Andrade.

Interesting fact, during the last election Florida had 4.8 Million votes cast by mail. To say that COVID had nothing to do with elevating this number would be silly of me, but we have to admit that is an impressive number. The legislature is looking at changes to the vote by mail requirements, the proposed change would require a voter to request a vote by mail ballot for each election rather than allowing for a standing order for a

mail ballot each election. Let's see how that goes over with voters, might see some fireworks. I will bring the lemonade and popcorn.

The legislature is looking seriously at passing legislation to pass business liability protections related to COVID, this is not new news to you I am sure. Surprisingly the bill stalled in a Senate Committee this week. The details help though. Senator Brandes, the Senate Bill sponsor, was held up in another committee meeting. Expect to see it in committee on March 2nd, which is also the first day of regular session.

The E-fairness bill passed Senate Finance and Tax Committee this week. The bill would require online retailers to collect sales tax and remit it to Florida. Florida is one of the rare states that does not force online retailers to collect sales tax and local brick-and-mortar retailers have been asking for this legislation, so have several powerful groups in Florida. Revenue estimates point to local sales tax collections increasing by \$229.5M. The combined impact to both state and local revenues would be about \$1.3B. That is a lot of new money available to the state and local governments. The bill sponsor in the Senate, Senator Gruters, has vowed to make this bill revenue neutral by offering tax relief elsewhere.

In other news, the bill repealing the Constitutional Revision Commission passed the final committee stop and will be ready to be heard on the full Senate floor.

A pair of bills I want to bring to your attention this week are titled Growth Management. The companion bills are HB 59 and SB 496. They are largely out of the realm of transportation except for a section that details how the Florida DOT will get rid of surplus land. The bill requires that if Florida DOT wishes to get rid of land that is no longer needed, they must first make an offer to sell at fair market value to the owner that the land was originally acquired from and that previous owner has 30 days to accept. This does not account for owners that cannot be located due to any variety of circumstances. Why bring this up in the MPOAC Legislative Newsletter? There is a larger issue for our members, the implication to counties and municipalities is that when the Florida DOT disposes of unneeded land it may not be available to local units of government. There are somewhat regular occurrences where the Florida DOT transfers title to property to a county, municipality or other local government, sometimes for free. This may block local officials from getting land for local projects. There was a recent example of land being given to a county from Florida DOT and that land became a dog park. The other consideration is that if land was used for a transportation facility and there is a remaining sliver of land, that remaining piece may be better suited as an access point to an adjacent parcel rather than going back to the original owner. This provision in both bills could be problematic for our local officials and you need to be aware of this detail in each bill.

Key dates for the 2021 Florida Legislative Session are shown immediately below. All new bills and any updates to bills shown in the last section of the newsletter are in **RED** so you can quickly distinguish between updates and old news. A few bills have been filed; many more will be filed over the coming months. Your MPOAC Legislative Update will keep you apprised of newly filed bills and changes to existing bills.
