- BICYCLE SAFETY EMPHASIS IN STRATEGIC HIGHWAY SAFETY PLAN
- 2% OR MORE FEDERAL FUNDS SPENT ON BIKE/PED

OVERALL POINTS

39 of 100

2014: 35 of 100

FEEDBACK

- Repeal the state’s mandatory bike lane law. These types of laws ignore the quality and safety of available bike lanes.
- Adopt specific and data-driven performance measures to decrease bicycle fatalities.
- Adopt a statewide, all-ages cell phone ban to combat distracted driving and increase safety for everyone.
- Modify state roadway design standards and criteria, including revisions to the Florida DOT Complete Streets Policy, to better control vehicle speeds in urban areas.
- Adopt a statewide bicycle plan that addresses each of the five “Es”, has clear implementation actions, and performance measures to gauge success.
- Adopt performance measures, such as mode shift or a low percentage of exempted projects, to better track and support Complete Streets Policy compliance. This can include measuring the performance of Complete Streets according to a variety of factors, such as economic performance, speed reduction, or safety metrics.
- Dedicate state funding for bicycle projects and programs focused on communities that do not have a local funding base for matching federal funds or are otherwise transportation disadvantaged.
- Adopt a mode share goal for biking to encourage the integration of bicycle transportation needs into all transportation and land use policy and project decisions. A mode share goal should explicitly state how many more people or percentage of people you hope to enable to choose bicycling as a form of transportation in the coming years.

The Bicycle Friendly States ranking is based on a comprehensive survey completed by state departments of transportation and state bicycling advocates. It asks comprehensive questions across 5 categories: Legislation and Enforcement, Policies and Programs, Infrastructure and Funding, Education and Encouragement, Evaluation and Planning. The results listed above provide only a snapshot of the full application. They are intended to offer some ideas for further growth in bicycle friendliness. For more information, visit www.bikeleague.org/states or contact Ken McLeod at (202)-822-1333 or ken@bikleague.org.
